## tired of paper timesheets?

As a homecare provider in today's marketplace, your documentation can really pile up.

Electronic Visit Verification (EVV) from CM2000 can lighten your load.

EVV keeps track of your remote workforce, confirming visits in real-time 24/7/365.

Caregivers dial a dedicated, unique toll-free number. Let it ring. Listen for the confirmation message. Done.

They barely need to lift a finger. (Well, maybe only when texting code from our fixed visit verification device.)

With no voice prompts or pin numbers required to identify the caregiver, training your staff is simple.

Payroll and billing are streamlined. Integration with other platforms is no problem. Compliance is a piece of cake.

And cake would go quite nicely with that long lost coffee mug. So go ahead and start with a clean slate.

With EVV from CM2000, you've cleared the path for success.

**we make E.V.V. as easy as 1.2.3.**

CM2000 IS PLEASED TO ANNOUNCE OUR NEWEST INTEGRATION PARTNER: **HEALTHTRUST SOFTWARE**

To sign up for our FREE 30-minute online EVV webinar, call **855-209-2345 toll-free** or email **info@cm2000.com**
